

# Edita Staskunaite

## Web designer/developer

My name is Edita Staskunaite, and I have recently transitioned from being a dental nurse to pursuing my passion for web development. Although my background in dental nursing provided me with valuable skills in attention to detail and effective communication, I have discovered my true passion lies in the dynamic and ever-evolving world of web development. I am currently dedicating myself to learning and expanding my knowledge in this field, and I am excited to bring my enthusiasm and drive to create innovative and user-friendly web experiences.

## Skills

- HTML & CSS
- JavaScript
- UX/UI
- Video creation and editing
- PHP & SQL
- Wordpress

## Languages

English

Lithuanian

## Experience

### 2018 - Present

Citrus Dental Care | 1 Meadow Place, Edinburgh

#### Dental Nurse

As a Dental Nurse, I played a crucial role in supporting the dental team to deliver exceptional patient care. I provided chairside assistance to dentists during procedures, ensuring they had the necessary instruments and materials readily available. I effectively prepared treatment rooms, sterilized dental instruments, and maintained a clean and organized clinical environment. Additionally, I developed dental radiographs (X-rays) and accurately recorded patient information. With strong communication skills, I provided compassionate care as a chair side support but also in reception, offering reassurance and comfort to patients throughout their dental visits.

### 2015 - 2018

Starbucks Leith | Shrubhill House 3, Edinburgh

#### Barista

As a Starbucks Barista, I was responsible for creating exceptional customer experiences by providing friendly and efficient service. I skillfully prepared and served a variety of beverages, including handcrafted coffee, tea, and specialty drinks, while ensuring consistent quality and presentation. I maintained a clean and organized work area, including the brewing equipment and service stations. As part of a close-knit team, I collaborated effectively to deliver exceptional customer service, uphold brand standards, and contribute to a positive work environment.

### 2013 - 2018

Letts/Filofax Group | Woodburn, Dalkeith

#### Warehouse Operative

In my role as a Quality Control Assistant, I played a key role in maintaining and ensuring product quality. This involved diligently logging and reporting quality issues, as well as efficiently managing goods using various software applications, including MS Office Word, MS Office Excel, and in-house systems. Additionally, I took charge of managing Filofax returns, handling return processing, stock and invoice management, and providing comprehensive reports on key account returns to the management team.
